

# Checklist: Reporting on an Indigenous-Led Fire Prescription

Confirm that you complete the following activities when reporting on your Indigenous-led fire prescription:

- ☐ Measure progress and update the Indigenous-led fire prescription.
- ☐ Track progress in implementing the Indigenous-led fire prescription in applying uses of fire on the land and attaining goals and management objectives, includes fire effects monitoring.
- ☐ Evaluate effectiveness of the Indigenous-led fire prescription on a regularly scheduled basis, for example, an annual review.
- ☐ Continue monitoring climate change and its growing impact, including regularly reviewing basic assumptions for cultural and ecological monitoring, for example, an annual review.
- ☐ Update the Indigenous-led fire prescription as circumstances change, holistic values shift and new information becomes available, for example, every five years.
